SUMMARY

I am a Full-Stack Developer with 1 year of hands-on experience in building scalable and responsive web applications using React.js, Node.js, Express, MongoDB, and PostgreSQL/MySQL. I'm skilled in both frontend and backend development, with a strong grasp of creating secure RESTful APIs and managing end-to-end deployments using tools like Docker and Git. I bring strong problem-solving abilities, a passion for writing clean and maintainable code, and a focus on delivering practical, business-oriented solutions.

WORK EXPERIENCE

Appiclogics Apps Pvt. Ltd. | Full-Stack Developer

Feb 2025 - Present

- Built scalable full-stack web applications for a travel booking platform and a jewelry eCommerce website using React.js, Node.js, and Express.js.
- Developed robust RESTful APIs for user authentication, order management, and product operations.
- Implemented JWT-based authentication with secure, cookie-based session handling.
- Designed and built responsive UI components, including dynamic booking workflows, product listing pages, and interactive price range sliders.
- Deployed applications using Docker on Coolify, and managed code with Git version control.

Accel, Mumbai | Software Developer

Aug 2024 - Feb 2025

- Developed and maintained scalable applications using React.js, Node.js, and Express.
- Built REST APIs for user authentication, order management, and product CRUD operations.
- Integrated JWT-based authentication with secure cookie-based sessions.
- Designed and developed a custom affiliate dashboard allowing users to list their products on Amazon and manage them directly through our platform.
- Deployed applications on AWS and managed source control using Git.

PROJECTS

Hulijewellers.in

Feb 2025 - Present

Role: Full-Stack Developer | **Stack:** React.js, Node.js, Express, PostgreSQL, JWT, Docker

- Built a modern jewelry shopping platform with user authentication, product filtering, and add-to-cart functionality.
- Developed secure REST APIs for managing products, orders, and user data.
- Implemented a responsive UI for product browsing, detailed views, and cart updates.
- Created an admin panel for inventory, order, and customer management.
- Deployed the application using Docker and managed version control with Git.

CoddleTrip.com

Apr 2025 - Jun 2025

Live : <https://www.coddletrip.com>

Role: Full-Stack Developer | **Stack:** React.js, Node.js, Express, PostgreSQL, JWT, Docker

- Created a comprehensive travel booking platform with features for hotel inquiries, package booking, and transport reservations.
- Implemented intelligent search filters to refine results by destination, duration, and budget.
- Developed secure user authentication, booking flow, and API integrations for real-time data.
- Built a responsive UI optimized for mobile and desktop users.
- Deployed using Docker and maintained source control with Git.

EDUCATION

Bachelor of Computer Applications (BCA)

Sep 2022 - Apr 2025
